

Tower History

St Patrick's, Coleraine

According to the broadsheet of the Rudhall Bell-Foundry of 1751, one bell was cast for "Coleraine". In a letter, Mr. Robert Simpson, Hon. Secretary of the Select Vestry, reports that there was an old bell in the church when it was rebuilt in 1884 - 85. It was sold in 1893 when the present ring of bells was installed.

The "new" bells hang in a square tower at the west end of the Church. They are without canons, have steel headstocks with roller bearings, and hang in a steel frame.
